Understanding the components of a deck

Get familiar with the sections of a deck and start building your dream handcrafted outdoor living space

Lighting

Increases safety & ambiance

Roof-Over

Increases the functionality & curb appeal of any home

Railing

A variety of color options, an assortment of spindle options, and a drink railing option.

Fascia

Boards that run around the perimeter of the deck

Stairs

Increase the functionality with stairs or ramps

Deck Boards

More than 30 colors to match your home & create the perfect outdoor space

Skirting

Keeps pests out & hides the framing of the deck

Other Considerations

Gates, privacy walls, screens, & rain guard

Composite decking is a type of building material made from a blend of wood fibers and plastic. It is designed to imitate the appearance of wood while offering increased durability and low maintenance. The combination of materials makes composite decking resistant to rotting, warping, and insect damage, which are common problems with traditional wood decking. It often comes in various colors and finishes, giving homeowners versatile design options.

PVC decking is a type of building material made entirely from polyvinyl chloride (PVC), a durable plastic. Unlike composite decking, which combines wood fiber with plastic, PVC decking is 100% synthetic. This composition offers several advantages: it is highly resistant to moisture, mildew, and insect damage, and it won't splinter, warp, or rot like traditional wood decking. PVC decking requires minimal maintenance and is available in a variety of colors and textures.

PRIME COLLECTION

Painted Wood Look

For an opaque stained or painted wood look, opt for the Prime Collection, which features earthy, vivid wood stain colors. Featuring the same colors as the Premier Collection, but with a scalloped board for a lighter weight, without compromising a secure underfoot feel.

- A subtle straight grain pattern
- Three-sided capping for excellent moisture resistance
- Available in standard width and thickness, with a scalloped profile
- Covered by 25-Year Limited Product and Fade & Stain Warranties

RECESSED LIGHTS

RECESSED: Illuminate, Highlight, and Inspire

Illuminate your outdoor space with versatile lighting options. The BIG FLUX highlights tall garden features, available in three colors. The PUCK provides omnidirectional lighting for driveways and walkways, also useful on stairs and walls. LUNA is recessed for illuminating walls and facades, safe to walk or drive over. EVO GROUND integrates into paving for sophisticated light lines. FUSION offers soft, non-glare lighting with a “starry night” effect, and HYVE provides bright, sparkling light for paths and driveways.

WALL LIGHTS

Wall Lights: Stylish, Durable, and Versatile

The HALO DOWN wall light combines style and durability with its sleek, wide light pattern on the wall and an atmospheric diffuse light image on the ground. It supports a voltage range of 100-230V, making it versatile for use on fences, privacy screens, and pergolas. The ACE DOWN wall fixture emits a focused beam of light, easily mountable on walls or fences, with a deeply positioned light source to reduce glare. Its light width can be adjusted using the separately available SHUTTER 1. Meanwhile, the WEDGE square wall fixture, crafted from coated aluminum, offers indirect bundled Warm White light and comes in Dark Grey, Rosé Silver, and White, ideal for enhancing deck posts, stone pillars, and deck skirting.

HALO™

Call for
Pricing

The HALO HLA4 Wide Beam Selectable Series Down lights are 4-inch canless recessed lights featuring an adjustable gimbal, making them suitable for new construction, remodels, and retrofits. They eliminate the need for traditional housing, allowing installation in hard-to-reach areas. Users can select color temperature (2700K to 5000K) via a switch on the fixture. The LED driver supports 120-Volt dimming, and the gimbal features 30° tilt and 360° rotation, making it ideal for various lighting needs. The Halo HLB6 offers adjustable color temperature (3000K to 5000K) and is designed for easy installation without a housing or junction box, with uniform illumination and wet location rating.

Metal Board and Batten Skirting

AB Martin now offers metal panels designed in the classic board & batten style. Traditionally, this siding was made by placing narrow wooden strips, known as “battens,” over the seams of wide boards. While wood was the standard choice, modern board & batten can be made from various materials, including metal. Discover the timeless board & batten look, now with the added strength of metal!

Continuous Corrugated Skirting

One of the earliest panel profiles dating back to before the colonial days, the continuous corrugated panels have transcended time to become one of the most popular stylistic panels on the market. Though not recommended for roofing because of the low rib height and lack of an anti-siphon channel, the continuous corrugated panel is great for interior decorating and siding applications.

2-1/2" Continuous Corrugated Panel

Panel Features:

- Maximum Coverage: 24"
- Gauge: 26, 28, and 29*
- Rib Spacing: 2-1/2"
- Rib Height: 1/2"
- Unpainted Substrate: G-90 Galvanized or AZ-55 Galvalume (not recommended for animal confinement)
- Painted Substrate: AZ-50 Galvalume (not recommended for animal confinement)
- Available in over 30 Energy-efficient Colors*
- Made to custom lengths
- 40-year warranty

1-1/4" Continuous Corrugated Panel

ABOUT US

Deck Zone was born out of a deep-seated appreciation for craftsmanship and a vision to create something unique in the world of construction. Raised on a farm, the owner grew up amidst the hard work and dedication that comes with managing dairy cows and broiler chickens. Instilling a strong work ethic from an early age. This upbringing rooted in Amish heritage, laid the foundation for his hands-on approach and appreciation for traditional methods, such as farming with mules and horses. At 18, he transitioned from farm life to the world of framing houses, where he discovered a passion for construction. The ability to envision and create tangible structures fueled his ambition to deliver more than just quantity, he sought quality and meaningful customer interactions. His journey led him to landscaping, where he envisioned creating not just landscapes, but transformative outdoor spaces. With the dream of establishing three divisions—stonework, decks, and sheds—Deck Zone began to take shape. Over time, the focus grew into creating custom, upscale deck and outdoor living spaces. Deck Zone thrives on a team-based approach, valuing creativity and innovation. His desire to push the boundaries and create unique outdoor living space designs, has wowed customers and set Deck Zone apart. Through these experiences, he continues to find joy and fulfillment, turning visions into reality while staying true to the values instilled in him from his Amish Heritage.

OUR PROCESS

1. Once a request is received, we will reach out to determine your vision.
2. A rough estimate is prepared and if it is within budget, we can set up an on-site visit to go over samples & design.
3. When we have it dialed in, we will create and email a proposal for signature.
4. Once signed and the initial deposit of 50% is collected, we will design a 3D rendering to bring your vision to life.
5. Project will be put on our schedule
6. The next step is to obtain permits from the local township.
7. Start of project with our deck crew along with 30% of payment captured
8. Throughout the build process, we will keep you up-to-date with the daily progress via nightly emails.
9. Once the project is complete, we will set up a final walkthrough and inspection, to ensure you are satisfied, along with collecting the final 20% payment.

PAYMENT PLAN OPTIONS

Plan Number	Description	APR	Estimated Payment Factor	Term (Total Payments)
2521	12 Months No Interest No Payments	15.99 - 24.99%	2.32%	84
2833	Fixed Rate for 120 Months	13.99%	1.55%	120
9991	Risk Based Loan (9.99% - 22.99%) Based on Credit*	9.99% - 22.99%	1.32% - 2.13% Based on APR*	120
4158	No Interest if Payed in Full Within 15 Months	17.99%/ 24.99%	2.10%	84

Deck Zone Warranty

We provide a 10 Year Labor Warranty on Workmanship, only Valid to Original Purchaser
Materials on your Project are covered by the Original Manufacturer (see specific manufacturer's warranty for info)

Exclusions from Deck Zone Warranty

Misuse of the Product from its Intended Purpose

Lack of Proper Maintenance

Random Acts of Nature (Weather, Acts of God, ETC.)

Warranty Claims need to be Reported within 10 days of Discovering a Problem

Provide a Detailed Description along with Photos and Copy of Original Invoice

- Otherwise Warranty could be Voided -

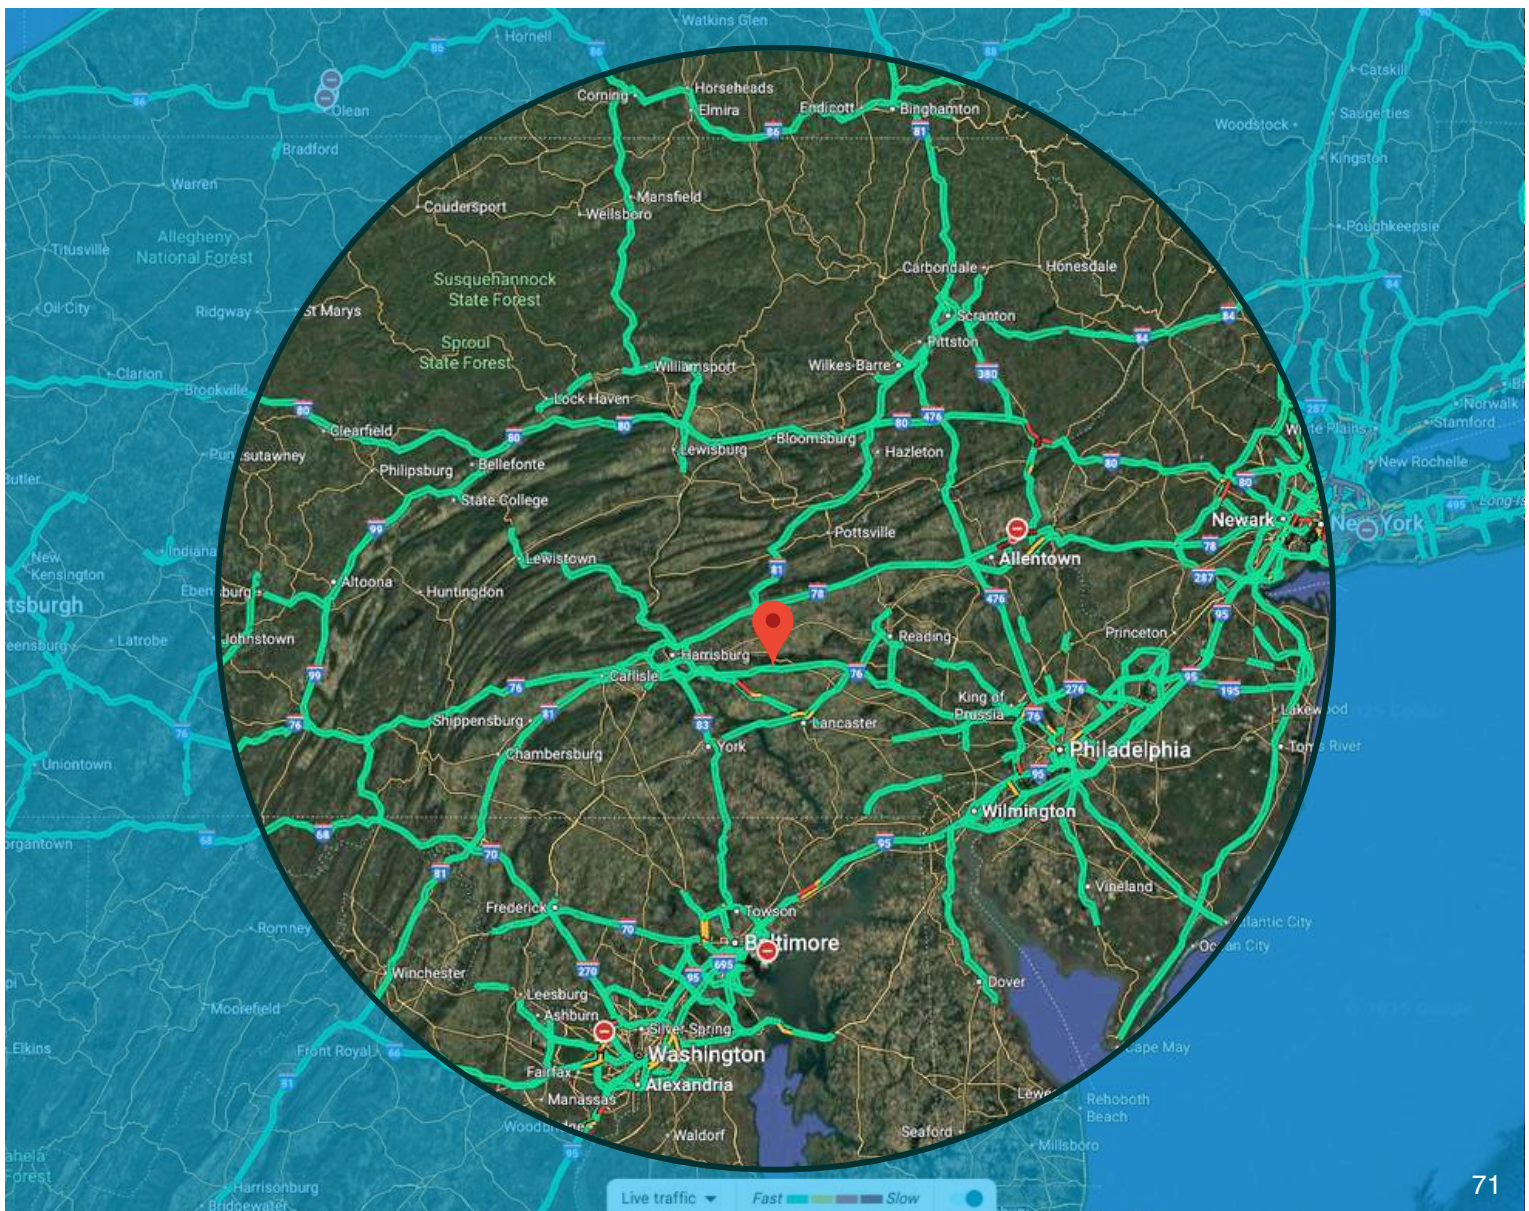

3D Renderings

3D renderings are utilized to help visualize deck designs and provide a conceptual idea of the build. These renderings serve as a visual example to inspire ideas and should not be considered as an exact replica of your deck. They are intended to convey the overall concept, rather than the precise construction details.

SERVICE AREA

Our primary service area covers communities within 150 miles of Myerstown, PA.

SOME OF OUR CUSTOMERS TESTIMONIALS

We are very happy with the work done by Deck Zone. They were very concerned about the quality of their work, paying attention to detail and proving their craftsmanship. I would definitely recommend them to friends and family.

Steve Hendricks

5 ★★★★★

Deck Zone just finished our dream deck last week. We are very happy and very satisfied with the work. Their attention to detail is beyond my expectations. The owner gave us a detailed final walkthrough. He really cares about the business and loves the job, as he takes detailed notes on my feedback. They also help us patch fix our lawn with seeding, after all construction is finished. Additionally, for their financing program, they partner with GreekSky and offer great 0% financing option. This is a game changer for us. I would highly recommend Deck Zone.

Ziyin Peng

5 ★★★★★

The Deck Zone team did a marvelous job both designing and constructing our deck. Their professional staff kept us posted on all steps of the project and were very detail oriented. The job was also completed when promised.

Great job!

Robert Rutherford

5 ★★★★★

Very professional company. Work was done and looks great.

Richard Hebel

5 ★★★★★

They were easy to talk to, listened to our ideas & even offered some of their own ideas, which I really appreciated because they obviously have a lot more experience than we do. I appreciated how they answered all questions. Bo showed us everything from the lower cost composite decking to the higher cost decking. He answered all our questions, which allowed my husband & I to make an informed, no pressure, decision.

Aaron Zehring

5 ★★★★★

Levi was great to work with, provided great ideas and feedback for what we were envisioning. The whole team always kept us informed and answered questions we had along the way which we greatly appreciated since my husband and I don't build large projects like this every day. The project exceeded our expectations, and daily updates on the project provided by Seth was great communication. We really appreciated everything they did for us and would highly recommend them for anyone looking to put a deck, porch or custom feature added onto their home to enhance their outside space.

Sarah Worobey
